

REVATHI MERUGU

Godavarikhani, Telangana, India | revathimerugu30@gmail.com | LinkedIn

Summary

Aspiring Frontend Developer and Computer Science Engineering student skilled in HTML, CSS, JavaScript, and responsive web development. Experienced in building interactive and user-friendly web applications through internships and real-time projects. Passionate about modern UI design, problem-solving, and developing scalable frontend solutions while continuously improving technical expertise.

Technical Skills

- Programming Languages:** JavaScript, Python, C, Java (Basics)
- Frontend:** HTML5, CSS3, Responsive Web Design
- Web Technologies:** Front-End Development, Basic Full-Stack Development
- Core Concepts:** Responsive Design, Problem Solving, API Integration Basics
- Tools & Platforms:** GitHub, VS Code
- AI & Other Skills:** Machine Learning Fundamentals
- Soft Skills:** Team Collaboration, Communication, Adaptability, Time Management

Internship Experience

Front-end Intern

Internship – Unified Platform

May 2026 – Present

- Developed 3+ responsive web application modules using HTML, CSS, and JavaScript, improving cross-device responsiveness by 40%.
- Built 4+ responsive UI components using HTML, CSS, and JavaScript, improving mobile compatibility across multiple screen sizes.

Edunet Foundation

Front-End Web Development Intern

Aug 2025 – Sep 2025

- Gained practical experience through a 6-week front-end web development internship focused on responsive UI development.
- Designed user-friendly responsive web interfaces reducing page loading issues and improving user accessibility.

Education

B. Tech, CSE

Jyothishmathi Institute of Technology and Science

Karimnagar | 2023-2027 | CGPA: 8.8

Intermediate, MPC

Kakatiya Junior College

Godavarikhani | 2021-2023 | Percentage: 93%

SSC

Sri Rama Vidya Niketan High School

Godavarikhani | 2020-2021 | CGPA: 10

Accomplishments

- Participated in India's Largest Bower AI Hackathon.
- Certified Member of The Indian Society for Technical Education (ISTE).
- Active contributor to real-time projects in collaboration with Edunet Foundation and SAP.

Certifications

- IBM Skills Build Front-End Web Development Certification
- Cisco Networking Academy – Network Essentials
- Coursera DevOps Certification
- Wadhvani Foundation Ignite India Entrepreneurship Program
- SAP Real-Time Projects Participation Certification
- Edunet Foundation Internship Certification
- Finished technical coursework and coding practice through Code Tantra platform

Projects

1. Digital Market Insights for Farmers and Consumers

Engineered a responsive web platform providing real-time market prices, weather updates, and government scheme information using API integration techniques, improving accessibility for farmers and consumers.

2. Entre Skill Hub - Skill-to-Startup Enablement Platform

Designed an AI-enabled skill-to-startup platform offering personalized learning roadmaps, mentorship guidance, and startup recommendations.

3. AI-Based Bone Fracture Detection and Classification System

Created an AI-driven fracture detection system using YOLO, TensorFlow, and OpenCV to classify bone fractures with improved analysis accuracy.

Technologies Used: YOLO, TensorFlow, OpenCV, Python.

4. Smart Campus Fix

Developed an innovative web-based solution to address campus-related issues with responsive user interface features during the entrepreneurship program.

5. Real-Time BPM Detection Using Laptop Camera

Built a real-time heart rate detection web application using webcam-based image processing, signal analysis techniques, and front-end development concepts for interactive monitoring.
